JSC DelfinGroup
Whistleblowing Policy 6PL1-0

1. GENERAL INFORMATION

- 1.1. DelfinGroup is committed to conducting business to the highest ethical standards and to building an internal organisational culture of openness and zero tolerance to violations. We support the reporting of violations or reasonable suspicions of potential violations by employees, customers, business partners or other stakeholders in connection with the performance of their job duties, which may endanger the public interest.
- 1.2. It is most often the employees who are the first to notice any illegal or unethical activities, but information about these activities is withheld for fear of negative consequences for themselves. The purpose of DelfinGroup is to provide a mechanism for such reporting to be safe for the whistleblower, while maintaining confidentiality and without creating any negative consequences. The company guarantees protection to the whistleblower, as well as his/her relatives in accordance with regulatory enactments.

1.3. CASES OF WHISTLEBLOWING

- 1.4. The Whistleblower may whistleblow about any violation of DelfinGroup that he/she has found, if the violation may harm interests of DelfinGroup, DelfinGroup employees, customers, some population group or any other important interests, for example, by stating violations of internal or external regulations; illegal activities; corruption; environmental damage and other violations.
- 1.5. No whistleblowing is required for the violations that affect only the personal interests of the Whistleblower, including any individual dispute of the Whistleblower. In this case, the employee has the right to protect his/her interests by using other legal remedies provided for in the law, for example, by contacting the supervisor, an appropriate institution or bringing an action in court.
- 1.6. Whistleblowing should concern the facts that have come to the disposal of the Whistleblower in the course of performance of their job duties. No whistleblowing is required regarding news or information heard from colleagues, friends or others. It is not decisive whether the information is obtained inside or outside the workplace.
- 1.7. Whistleblowing should be done in good faith, i.e. the Whistleblower must have reason to believe that a violation is being or may be committed.
- 1.8. The provision of deliberately false (mendacious) information, the disclosure of information containing trade secrets and the reporting only violation of personal interests is not considered to be whistleblowing and a person may be held administratively liable for that.
